

The 2022 legislative session ended just before midnight on May 11. This year there were 657 pieces of legislation introduced. At the beginning of the session the issues that were going to be the primary focus by legislative leadership and Governor Polis included education, public safety and policies that make Colorado more affordable. Superseding even these stated agendas however was the overarching theme of this legislative session – spending the more than \$2.6 billion of federal stimulus money.

Some of this federal stimulus money was allocated to wildfire mitigation and prevention. This is an important issue in the SWCD region as it relates to watershed management, and we monitored several bills that provided support for local communities to implement programs related to forest management and wildfire mitigation.

Another wildfire related bill that had direct ties to water was SB22-114: Fire Suppression Ponds Water Rights. This was a proposal from Colorado Counties, Inc. to give county commissioners the authority to designate certain ponds as fire suppression ponds and protect them from being drained by the State Engineer for being out of priority. The bill was introduced early in the session but didn't see final action until the end due to the significant stakeholder work CCI did with other water interests. In the end, the bill allows for a limited number of fire suppression ponds to be designated but provides protection against injury by allowing water rights owners to challenge the designation approval.

Water is always a hot topic at the legislature and this year we saw 9 bills introduced that dealt with several different policy issues. With the ongoing drought that most of Colorado and the surrounding region is experiencing, much of the conversation centered around how to stretch the limited supplies of water over many different needs. This included legislation to incentivize turf replacement in urban areas (HB22-1151) and a bill that provided funding through irrigation districts to provide loans for water conservation and infrastructure improvement projects (HB22-1092). Colorado's efforts to use every drop of water we are entitled to caught the attention of our neighbors to the northeast and the State of Nebraska made a surprise announcement that they were going to invoke a little known provision in the South Platte Compact to build a canal in northeastern Colorado to bring water into Nebraska. This prompted a swift response from some Colorado legislators who introduced a bill (SB22-029) that directed the State of Colorado to prioritize water infrastructure investment spending on projects in the South Platte River Basin. While a noble cause, it caused significant concern from water users in the rest of the state and ultimately the bill died in the House Ag Committee.

Perhaps one of the most contentious water bills was SB-028, Investment Water Speculation. This was a bill that came from the Water Resources Review Committee and the intent was to define "investment water speculation" and prohibit that practice from occurring. Many water experts argued that this policy change was not needed and agreed that Colorado already has some of the most stringent anti-speculation laws on the books. Others argued that proving intent of a water buyer that the transaction is only for financial gain is all but impossible.

Ultimately the bill died on the calendar after not receiving a final vote in the Senate Agriculture Committee.

In other water news, the Water Resources Review Committee members have been announced. They are:

- Senator Kerry Donovan (D-Vail), Chair
- Representative Barbara McLachland (D-Durango), Vice Chair
- Senator Jeff Bridges (D-Greenwood Village)
- Senator Sonya Jaquez Lewis (D-Boulder)
- Senator Cleave Simpson (R-Alamosa)
- Senator Jerry Sonnenberg (R-Sterling)
- Representative Marc Catlin (R-Montrose)
- Representative Karen McCormick (D-Longmont)
- Representative Hugh McKean (R-Loveland)
- Representative Dylan Roberts (D-Eagle)

Currently the committee is scheduled to meet on the following dates:

August 4, 2022 (location TBD)

August 24, 2022 (Steamboat Springs, Colorado Water Congress Summer Meeting)

September 22, 2022 (State Capitol, Denver)

Topics for discussion have not been announced but CLS monitor the discussions and will send out more information as it becomes available.

The 2023 legislative session begins on January 9. It is an election year and due to legislators either leaving their current office to pursue a different office or term limits we expect to see significant change in the make-up of the General Assembly next year. The first round of voting gets underway in the primary, which is June 28. The General Election will be held on November 8, 2022.

Southwestern Water Conservation District

HB22-1007 Assistance Landowner Wildfire Mitigation

Sponsors: D. Valdez (D) | M. Lynch (R) / C. Simpson (R) | P. Lee (D)

Summary: The bill creates the Wildfire Mitigation Resources and Best Practices Grant Program in the Colorado State Forest Service. Grant recipients must be an agency of local government, a county, a municipality, a special district, a tribal agency or program, or a nonprofit organization. Grant funds may be used to conduct outreach among landowners regarding available resources and best practices for wildfire mitigation. Commencing no later than the 2023-2024 state fiscal year, the bill requires the General Assembly to annually appropriate money from the General Fund to the Healthy Forests and Vibrant Communities Fund to implement the grant program. Grants are awarded each January beginning in 2024. The CSFS must submit a report to the Wildfire Matters Review Committee each September beginning in 2025.

Under current law, the state income tax deduction for wildfire mitigation expenses is scheduled to become unavailable after tax year 2024. The bill extends the deduction for one year, through tax year 2025. The bill also creates an income tax credit for wildfire mitigation expenses. Between tax years 2023 through 2026, the credit is available to landowners with federal taxable income of no more than \$120,000, adjusted for inflation, and is equal to 25 percent of the taxpayer's cost for wildfire mitigation expenses, up to \$625 per year.

Status: 5/20/2022 Sent to the Governor

HB22-1011 Wildfire Mitigation Incentives For Local Governments

Sponsors: L. Cutter (D) | M. Snyder (D) / T. Story (D) | P. Lee (D)

Summary: The bill creates the Wildfire Mitigation Incentives for Local Government Grant Program in the Colorado State Forest Service. The program will provide grants to municipal and county governments to either match funds received from a dedicated revenue source or expand existing programs focused on forest management or wildfire mitigation efforts. Grants must be used to match the dedicated revenues raised by the local governments for activities such as forest thinning, wildfire fuel

reduction and outreach and education efforts to property owners and the public.

The grant program will be funded through \$10 million from the state General Fund. The grant program is repealed, effective September 1, 2027.

Status: 5/10/2022 House Considered Senate Amendments - Result was to Concur - Repass

Fiscal Notes: [Fiscal Note](#)

HB22-1012 **Wildfire Mitigation And Recovery**

Sponsors: L. Cutter (D) | D. Valdez (D) / J. Ginal (D) | P. Lee (D)

Summary: The bill requires the State Forest Service to develop a publicly accessible statewide carbon accounting framework that yields carbon stock and flux estimates for:

- Ecosystems by county and forest cover type; and
- Wood products.

The State Forest Service must also develop a forest carbon co-benefit framework for project-level forest management practices, including wildfire mitigation. The framework will be used to train practitioners in adaptive management practices to be incorporated into current forest management practices.

The framework will be funded through \$3 million from the General Fund.

Status: 5/25/2022 Sent to the Governor

Fiscal Notes: [Fiscal Note](#)

HB22-1092 **Loans From Irrigation Districts To Landowners**

Sponsors: M. Soper (R) | D. Roberts (D) / J. Bridges (D) | D. Coram (R)

Summary: The bill allows an irrigation district to borrow money, which may be used to make loans to landowners to be used to make improvements to private water delivery systems or for other types of projects that increase water conservation or to improve delivery or drainage systems. The irrigation district must include in its annual appropriation resolution all amounts payable by landowners and indicate the amount payable by

each tract within the irrigation district for which a landowner has received a loan.

The bill specifies that the irrigation district cannot assess landowners to raise money to fund the loans. The bill further specifies that in the case of default in the payment of any loan installment, the county treasurer may assess upon the eligible real property a tax lien for the payment of the whole of the unpaid installment; except that, the county treasurer shall not assess a tax lien for the entire value of the landowner's portion of the irrigation loan issued by the water district.

Finally, the bill states that the county treasurer will receive \$5 per tract assessed for loans issued to landowners by an irrigation district, and this \$5 will be assessed against each participating tract.

Status: 4/12/2022 Governor Signed

Fiscal Notes: [Fiscal Note](#)

HB22-1097 **Dissolution Of Special Districts**

Sponsors: D. Valdez (D) / C. Simpson (R)

Summary: Under current law, municipalities and regional service authorities are authorized file an application for dissolution with a special district's board of directors. This bill expands that authorization to boards of county commissioners. The bill also expands current law to allow a board of county commissioners and a special district that is wholly within a county's boundaries and has no outstanding debt or financial obligations to mutually consent to dissolution via a court order without an election.

Fiscal Notes: [Fiscal Note](#)

HB22-1151 **Turf Replacement Program**

Sponsors: M. Catlin (R) | D. Roberts (D) / J. Bridges (D) | C. Simpson (R)

Summary: Before July 1, 2023, the bill requires the CWCB o develop a turf replacement program and work with independent third parties to incentivize the voluntary replacement of nonessential irrigated turf on residential, commercial, institutional, or industrial properties. The bill specifies that an entity that already administers or plans to administer a turf replacement program may apply for matching funds from the state program. An eligible applicant must provide up to 50 percent of the costs to develop and implement a local program and must begin

implementation within 12 months of receiving a grant. The program is to be funded by a one-time transfer of \$2 million from the General Fund.

Fiscal Notes: [Fiscal Note](#)

HB22-1301 **Controlled Environmental Agricultural Facility As Agricultural Property**

Sponsors: M. Soper (R) | D. Roberts (D) / K. Donovan (D) | C. Simpson (R)

Summary: This bill specifies that a controlled environmental agricultural facility (CEA) is valued for assessment purposes as all other agricultural properties. Beginning with property tax year 2023, this bill defines a CEA facility as a nonresidential structure and related equipment combining engineering, horticultural science, and computerized management techniques to optimize hydroponics, plant quality and food production efficiency from the land's water for human or livestock consumption. This does not apply to marijuana cultivation.

The bill specifies that a CEA facility may not violate the terms of any applicable water court decree or materially injure water rights or conditional water rights.

Status: 5/20/2022 Signed by Governor

Fiscal Notes: [Fiscal Note](#)

HB22-1316 **Colorado Water Conservation Board Construction Fund Project**

Sponsors: K. McCormick (D) | M. Catlin (R) / K. Donovan (D) | C. Simpson (R)

Summary: The bill appropriates a total of \$17,080,000 from the CWCB Construction Fund for specified water-related projects. *Please see the Fiscal Note for the list of projects.* In addition, the bill transfers \$3.0 million between water-related cash funds and authorizes the CWCB to loan up to \$13,130,000 from the CWCB Construction Fund to the town of Breckenridge to rehabilitate the Goose Pasture Tarn dam.

Status: 5/23/2022 Signed by Governor

Fiscal Notes: [Fiscal Note](#)

HB22-1322 **Water Quality Regulation**

Sponsors: A. Benavidez (D) | A. Valdez (D) / D. Moreno (D) | J. Gonzales (D)
B.

Summary: The bill adds the Water Quality Control Commission (WQCC) to the list of agencies required to conduct outreach to and engagement of disproportionately impacted communities regarding proposed state actions, defined under current law as rulemaking proceedings, licensing proceedings, and adjudicatory hearings. The bill also requires the WQCC to utilize criteria promulgated in rule for designating waters as use-protected, and establishes a five-year statute of limitations for bringing actions alleging a violation of the Water Quality Control Act or any rules or orders under the act.

Status: 5/31/2022 Sent to the Governor

Fiscal Notes: Fiscal Note

HB22-1323 **Updates To State Forest Service Tree Nursery**

Sponsors: M. Snyder (D) | M. Froelich (D) / B. Rankin (R) | J. Ginal (D)

Summary: The bill requires that the Colorado State Forest Service (CSFS) upgrade and improve its seedling tree nursery to expand capacity and contribute to reforestation efforts. The bill requires physical upgrades and improvements in several areas of nursery operations, including the addition of full time professional nursery staff. The CSFS must contract with management and reforestation professionals to analyze the nursery’s capacity and knowledge investments to better address reforestation needs in response to wildfire, flood, insect, and disease events.

Fiscal Notes: Fiscal Note

HB22-1345 **Perfluoroalkyl And Polyfluoroalkyl Chemicals**

Sponsors: L. Cutter (D) | M. Bradfield (R) / J. Gonzales (D) | P. Lee (D)

Summary: Starting January 1, 2024, the bill prohibits the sale or distribution of certain consumer product categories that contain intentionally added PFAS chemicals. These product categories include carpets or rugs, cosmetics, fabric treatments, food packaging, juvenile products, oil and gas products, textile furnishings, and upholstered furniture. The bill also requires manufacturers of cookware sold in the state containing intentionally added PFAS in the handle or in any surface that comes into contact with food or beverages to list the presence of PFAS chemicals on the product label in both English and Spanish. It also modifies the state

procurement code and restrictions on the use of class B firefighting foam.

PFAS chemicals are synthetic chemicals that were developed to coat products to make them heat, water, and oil resistant. They have become prevalent in a variety of products including nonstick cookware, water-repellant clothing, stain-resistant fabrics, and firefighting foams. According to the U.S. Environmental Protection Agency, there are over 4,000 different types of PFAS that have been manufactured in the last 70 years.

Fiscal Notes: [Fiscal Note](#)

HB22-1358 **Clean Water In Schools And Child Care Centers**

Sponsors: E. Sirota (D) / F. Winter (D) | R. Fields (D)

Summary: The bill requires that all eligible elementary schools, child care centers, and family child care homes test for the presence of lead in drinking water sources using a state-certified laboratory by May 1, 2023, and according to an established testing schedule thereafter. Middle schools (grades 6-8) must start testing their drinking water sources by November 30, 2024. Schools and facilities will make their results publicly available and submit to the WQCC, which will make the results publicly available on its website within 30 days. If tests show that drinking water sources contain lead in an amount of five parts per billion or more, the facility must determine and implement a remediation plan. CDPHE will provide training to all facilities as well as provide technical assistance to facilities located in rural areas.

Status: 5/31/2022 Sent to the Governor

Fiscal Notes: [Fiscal Note](#)

HB22-1363 **Accountability To Taxpayers Special Districts**

Sponsors: M. Weissman (D) | A. Boesenecker (D) / J. Gonzales (D) | T. Story (D)

Summary: The bill modified statutory provisions governing the issuance of debt by metropolitan districts. The bill would have prohibited a local government from approving a service plan for a proposed metropolitan district that permits the purchase of district debt by any entity with which a director has disclosed a conflict of interest. The bill also prohibited metropolitan district board members that approved the issuance of any debt while serving on the board from acquiring any interest in the debt, except if the

debt is acquired indirectly through an investment fund if the member has no input into or control over the individual securities that the fund purchases. For metropolitan districts created on or after January 1, 2023, prior to issuing debt to a director of a metropolitan district or to an entity requiring the director to make a conflict of interest disclosure to its local government, the metropolitan district must obtain a statement of a registered municipal advisor certifying that the interest rate of the debt does not exceed certain limitations as outlined in the bill.

HB22-1379 **Wildfire Prevention Watershed Restoration Funding**

Sponsors: K. McCormick (D) | M. Catlin (R) / K. Donovan (D) | C. Simpson (R)

Summary: The bill makes the following transfers totaling \$20.0 million from the Economic Recovery and Relief Cash Fund:

- \$3.0 million to the Healthy Forests and Vibrant Communities Fund in the Colorado State Forest Service to support wildfire risk mitigation and watershed resilience;
- \$2.0 million to the Wildfire Mitigation Capacity Development Fund in DNR for wildfire mitigation and fuel reduction projects; and
- \$15.0 million to the CWCB Construction Fund for watershed restoration and flood mitigation project grants, administering the grant program, and to provide grants and assistance in applying for grants to local governments.

SB22-007 **Increase Wildfire Risk Mitigation Outreach Efforts**

Sponsors: T. Story (D) | P. Lee (D) / L. Cutter (D) | M. Snyder (D)

Summary: The bill requires the Colorado State Forest Service to convene a working group to consider how best to conduct an enhanced wildfire awareness month outreach campaign in 2023 and 2024. The campaign is intended to educate and incentivize residents living in the wildland-urban interface (WUI) to engage in wildfire risk mitigation efforts.

SB22-013**Boards And Commissions**

Sponsors:

S. Fenberg (D) | C. Holbert (R) / A. Garnett (D) | H. McKean (R)

Summary:

The bill makes changes to requirements for boards and commissions where membership is based on representation from congressional districts, as well as various other changes to procedures for membership and appointments, including when the boundaries of a district change and when boards gain or lose members due to congressional redistricting.

The bill requires all boards and commissions, except where statute or constitutional provision provide otherwise, to:

- fill vacancies for the remainder of unexpired board member terms using the appointing authority that made the initial board member appointment;
- allow directors or executive directors who are ex officio members of a board to designate another person within their agency to fulfill their duties on the board;
- define “minimum majority” as the lowest number of members that is more than half of all board members;
- allow board members to participate remotely in board meetings; and,

only count a partial term toward a member's term limit if it is greater than half the length of a standard term for the board.

SB22-029**Investment Water Speculation**

June 2, 2022

Sponsors: C. Coram (R) | K. Donovan (D) / K. McCormick (D)
D.

Summary: The original version of the bill defined and prohibited investment water speculation. It authorized the State Engineer to investigate purchases of agricultural water rights that are suspected of investment water speculation and authorized the Attorney General to investigate frivolous complaints of water speculation. The bill was very contentious and did not get scheduled for committee debate until late in the session. Due to the complexity of the issue and the widespread opposition to the introduced version of the bill, Senate sponsors agreed to amend the bill to direct the Water Resources Review Committee to discuss the topic during the interim, however, in a surprise move the bill was laid over and a final vote was not taken. The Committee did not convene again for the rest of the session and the bill died on the calendar.

Status: 4/21/2022 Senate Committee on Agriculture & Natural Resources Lay Over Amended

Fiscal Notes: [Fiscal Note](#)

SB22-030 **Expand Water Resources Review Committee To Include Agriculture**

Sponsors: K. Donovan (D) | J. Sonnenberg (R) / B. McLachlan (D) | M. Catlin (R)

Summary: The bill expands the scope of the Water Resources Review Committee to include identifying, monitoring, and addressing agriculture issues, and renames it the Water Resources and Agriculture Review Committee. There were discussions to specify that the WRRC would only address agricultural issues that directly involve water matters but no amendments were offered to do so.

Status: 3/30/2022 Governor Signed

Fiscal Notes: [Fiscal Note](#)

SB22-114 **Fire Suppression Ponds Water Rights**

Sponsors: D. Hisey (R) | T. Story (D) / D. Roberts (D) | M. Catlin (R)

Summary: The bill allows a board of county commissioners to consult with the local fire prevention district to apply to the State Engineer to have certain ponds designated as fire suppression ponds. The Colorado Division of Fire Prevention is required to promulgate rules to establish criteria for fire prevention ponds. The county commissioners must identify ponds in areas where the outbreak of a fire could result in a major wildfire disaster and perform a needs assessment of each such

pond. If a pond that is under consideration for designation as a fire suppression pond is located in whole or in part upon private property, a board must acquire the voluntary written approval of each owner of private property that abuts the pond before the board applies to the state engineer for the designation of the pond as a fire suppression pond. For each pond that is identified and under consideration as a potential fire suppression pond, a board must provide notice of such fact to the state engineer.

The water in a fire protection pond is not considered a water right, does not have priority, and may not be adjudicated. The bill limits the amount of water that can be held in such ponds to less than 30 total surface acres in any county with some exemptions. Water rights owners in the area where a proposed fire suppression pond is located may petition the water court to request a review of the State Engineers decision to approve a pond. The bill specifies that a fire suppression pond is presumed to not cause material injury to vested water rights. A holder of a decreed water right may rebut the presumption by providing evidence to the state engineer sufficient to show that material injury has occurred or will occur to the decreed water right.

The designation of a fire protection pond expires after 15 years, but the state engineer may redesignate the pond if all the conditions are met.

The State Engineer is prohibited from ordering any pond to be drained if the pond is under consideration for designation as a fire suppression pond or if the pond has already been designated as a fire suppression pond. An exemption was added to the bill that allows the State Engineer to drain the pond for compact compliance purposes.

Fiscal Notes: [Fiscal Note](#)

SB22-115**Clarifying Terms Related To Landowner Liability**

Sponsors: S. Jaquez Lewis (D) | B. Gardner (R) / M. Soper (R) | K. Tipper (D)

Summary: The bill clarifies terms related to landowner liability and declares that the Colorado Court of Appeals and Supreme Court decisions in Rocky Mountain Planned Parenthood, Inc. v. Wagner should not be relied upon concerning whether third-party criminal activity can be anticipated based on how controversial the landowner's goods or services are and that a landowner could be liable for harm predominantly caused by third-party criminal activity.

Fiscal Notes: [Fiscal Note](#)

SB22-126 **Prioritize Water Storage Projects South Platte Basin**

Sponsors: J. Sonnenberg (R) | K. Donovan (D) / R. Holtorf (R)
Summary: Under current law, CWCB is authorized to finance water projects from the CWCB Construction Fund and gives first priority to projects that will increase the beneficial consumptive use of the state’s undeveloped interstate compact-entitled waters. As introduced, the bill amended this first priority to include projects that increase or improve undeveloped compact-entitled water storage in the South Platte River Basin to increase beneficial consumptive use in a manner that reduces reliance on transmountain diversions. The bill was amended in the Senate Agriculture and Natural Resources Committee on March 24 to remove language giving priority to the South Platte River Basin in the CWCB loan process. The bill then just stated that first priority for the CWCB loans should be devoted to projects that will increase the beneficial consumptive use of Colorado's undeveloped compact-entitled waters, *including* in the South Platte River Basin. This was not enough to address the concerns of the other river basins and the bill ultimately died in the House Agriculture, Livestock & Water Committee.

Status: 3/28/2022 House Committee on Agriculture, Livestock, & Water Postpone Indefinitely
Fiscal Notes: [Fiscal Note](#)

SB22-131 **Protect Health Of Pollinators And People**

Sponsors: S. Jaquez Lewis (D) | K. Priola (R) / C. Kipp (D) | M. Froelich (D)
Summary: The bill updated pesticide regulation in a number of ways:

- Restricted the use of pesticides on the grounds of schools, preschool programs, child care centers, and children’s resident camps.
- Directed DNR to study and develop recommendations on how to address pollinator decline and increase pollinator health in the state.
- Created the Noncoated Seed-Applied Systemic Insecticide Pilot Grant Program in the Department of Agriculture to provide financial incentives to farmers to use non-coated seeds.
- Increased the number of pesticides on the restricted-use list at the Department of Agriculture

- Repealed state authority over pesticide regulation which would allow local governments to regulate pesticide use, except for agricultural purposes.

Status: 3/3/2022 Senate Committee on Agriculture & Natural Resources
